Note:
/ DK: Annual income before deduction of taxes in Danish Kroner (DKK); midpoints of the income classes are coded. In the survey respondents were asked for their households average monthly income. Annual income was subsequently computed as 12 times the monthly income reported and grouped into 14 brackets.
/ DK: Please note that there is a markedly high proportion of respondents in category 'Below 100.000 DKK per year, gross'. This may be due to the new wording of the question in which respondents are asked to indicate their average monthly salary instead of their average annual salary.

MARITAL - Legal partnership status

BVQ_34. MARITAL

What is your current legal marital status?

COMMENT TO MARITAL: The aim of this variable is to measure the current 'legal' marital status of the respondent. 'Living as married' or 'de facto married' is no legal partnership status and therefore not of relevance to this variable. Note that MARITAL must not be filtered by responses to PARTLIV.

.....

AT: Now some questions about your life situation: What is your marital status?
BG: What is your marital status?
CH: What is your current legal marital status?
CL: What is your current marital status?
CZ: What is your marital status?
DE: What is your marital status? Are you...?
DK: What is your current legal marital status?
ES: Which of the following best describes your current situation?
FI: Are you currently...?
FR: Are you...?
GB-GBN: Derived variable from two questions, showing the legal marital status for all respondents who answered those questions.
GE: What is your current legal marital status?
HR: Marital status of respondent (legal status)
HU: Derived from 'What is your marital status?' and 'Are you living with a partner?' and 'Have you registered your partnership before a notary?'
IL: What is your current legal marital status?
IS: What is your current marital status?
IT: What is your current legal marital status?
JP: What is your current legal marital status?
KR: Is [PERSON] now married, widowed, divorced, separated, cohabiting, or never married?
LT: What is your current legal marital status?
NO: What is your current legal marital status?
NZ: Which one of these categories best describes your current marital status?
PH: What is your current legal marital status?
RU: What is your marital status?
SE: What is your current legal marital status?
SI: What is you marital status?
SK: What is your current marital status?
SR: What is your current legal marital status?
TH: What is your current marital status?
TR: Which one of the following is more suitable for your current marital status?
TW: What is your current marital status?
US: Are you currently – married, widowed, divorced, separated, or have you never been married?
ZA: What is your current marital status?

1 Married
2 Civil partnership

3 Separated from spouse/ civil partner (still legally married/ still legally in a civil partnership)
4 Divorced from spouse/ legally separated from civil partner
5 Widowed/ civil partner died
6 Never married/ never in a civil partnership, single
7 Refused
9 No answer

in Austria (AT):
3 Not used
4 Divorced/ Separated

in Iceland (IS):
2 In registered cohabition

in South Africa (ZA):
2 Never married but engaged
6 Including never married and not engaged

Note:
/ AT: The national questionnaire conflates the marital status categories 'Divorced' and 'Separated'. It is not possible to properly separate both categories in retrospect.
/ BG: Since living like a couple is no legal marital status, observations of the original answer category 2 'I live with a partner without marriage' has been recoded into the harmonized code 6 'Never married/ never in a civil partnership, single' during the data preparation.
/ CH: Code 2 'Civil partnership' includes same-sex partnerships registered on federal level.
/ CL: Up to 2004 there was no law regulating divorce in Chile. The legal way to end up a marriage was through a process of annulment (encoded to code 3).
/ CL: Civil partnerships are allowed in Chile since 2015 (for heterosexual partnerships and for same-sex partnerships).
/ CZ: Code 2 means 'Registered partnership' (registrovane partnerstvi), possibility to register partnerships for same-sex partners.
/ DE: Civil partnerships means same-sex, formally legalised partnerships.
/ FI: Code 2 'Civil partnership' includes registered partnerships available for same-sex couples.
/ FR: Code 2 includes 'Pacsé(e)', a French contract of civil partnership.
/ HR: Civil partnership is legally defined as living in a common household for a minimum period of 3 years and/ or joint parenthood.
/ IL: The wording used for code 2 translates as 'Living with a regular spouse with a joint life agreement'.
/ IS: Code 2 includes 'In registered cohabition'.
/ IT: Code 2 includes same-sex unions ('Unione civile').
/ LT: There is no legal civil partnership in Lithuania.
/ NO: Code 2 'Civil partnership' includes registered partner (same sex).
/ NZ: Original category 'De facto' was converted to code 6 'Never married'. Category 2 includes civil unions (same-sex partners).
/ SE: Code 2 'Civil partnership' reads 'Registered partnership' (same-sex partners).
/ SR: Code 2 'Civil partnership' includes 'Common law marriage'.
/ US: MARITAL now encompasses both opposite-sex and same-sex marriages (code 1). The US General Social Survey uses POSSLQ and POSSLQY (see note in PARTLIV for US) to track long-term cohabitation, but does not ask about civil partnerships separate from marriage (which means that code 2 is not used).
/ ZA: Previously there were not many of these types of marriages, but the common form of African marriages (Lobola) are now recognized under code 2 'Siviele Verhouding'.

F_BORN - Father's country of birth

BVQ_35. F_BORN

In which country was your father born?

Countries were recoded according to the numerical 3 digits ISO3166 code.

COMMENT TO F_BORN: 'Country' refers here to states only, not to sub-national regions or areas. If the father's country of birth does not exist anymore under the former name, the current term of the country where the birthplace is located should be written in.

in Great Britain (GB-GBN):
0 Not available

Note:
/ AT: Answers to the last answer option were assigned manually to the right country code in retrospect.
/ BG: Open-ended question.
/ CL: Open-ended question.
/ CZ: Countries coded 1-8 including text answers from code 9 were encoded into ISO 3166 country codes.
/ DE: Former Eastern territories of Germany coded as Germany.
/ ES: Open-ended question for those who were not born in Spain. Countries coded based on a country list used by the Spanish Statistic Institute, then transferred into ISO 3166 codes.
/ FI: Open-ended question.
/ FR: Open-ended question.
/ IL: Open-ended question.
/ IS: Behind the second option there was an open textbox. The answers were coded afterwards. In order to avoid disclosing too much information

about the respondents, the following (no official ISO 3166) codes have been used where the frequency was less than 5: code 930 for Europe, 935 for Latin and South America, 940 for Africa, 960 for other countries/ regions.

/ IT: Open-ended question.

/ NO: Data in F_BORN and M_BORN have been partly deleted and partly recoded/ swapped to avoid disclosure risk.

/ RU: Open-ended question.

/ SE: Category 2 open responses recoded following the ISO 3166. Category 1 recoded to 752. Countries not existing today were recoded to present ones, e.g. Soviet Union coded as Russian Federation. Those ticking the box that mother or father not born in Sweden but did not write in country of origin were coded as 'Don't know'.

/ SI: Open-ended question. Expected most frequent answers were pre-coded for CAPI, other answers were coded as 'other' and then included in additional variable. Both variables were used to create F_BORN.

/ SK: Category 3 open responses recoded following ISO 3166.

/ TH: Open-ended question, subsequently countries encoded to ISO 3166.

/ US: Respondents are not asked for parents' country of birth, only if their parents (one or both) were born in the United States or not. As a result, only two codes are available for the US: Born in the US (code 840 'United Stated') and born outside the US (code 950 'Outside of COUNTRY').
